**1. Read the Manual:**

- Carefully read the entire manual provided for the experiment.
- Pay close attention to the procedures, safety guidelines, and data collection methods.
- Checklist can be found on Google drive folder (T4.2 Summer school for Banja Luka – Students)

**Additional Tips:**

- Ask your instructor or lab partner if you have any questions about the manual, calculations, or flashcards.
- Organize your notes and materials to stay organized and prepared for the lab.
- Follow all safety guidelines strictly to ensure a safe and successful lab experience.

**Note:** All the materials for the lab work will be printed for you.
